Automatic Stapling Machine SHM LRS-B 6/X

for stapling carton bottoms and lids of filled folding boxes with overlapping flaps .

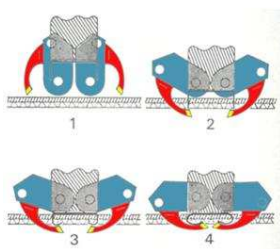

Coiled staples are firmly anchored in the carton by clinching anvils.
6 stapling heads LRS B 34 are mounted with a fixed distance to each other.
The carton flaps have been prefolded and are then entered horizontally on a roller conveyor into the stapling machine.

In the stapling station 6 stapling operations are triggered simultaneously in a distance of 200 mm and a height of 135 mm from the carton rim.

Technical Data:

Adjustable to carton sizes:	
Length:	2700 – 800 mm
Width:	450 mm
Height:	155 – 165 mm
capacity	4 Faltschachteln / Minute
6 Stapling Heads	LRS B 34
Staple Capacity of Head	5000 coiled staples Each 3 for bottom and 3 for top
Reloading of Head	Less than 1 Minute
Power Source	Elektro/Pneumatic, 415 Volt, 50 Hertz, 4-6 bar
Control	pneumatic
Equipped with 20 ltr. pressure tank	to compensate pressure fluctuation
Height of conveyor	800 mm
Dimension L x B x H	2000 x 1500 x 1300 mm

1.(TGR-LRS) 2. (A05) 3. (A04) 4.

Stapling (1-2) overlapping cartons; (3+4) filled cartons
