Automatic Stapling Machine SGR 10/A 20 - 42

Varying aluminium sheets with a plastic base part on top will be put into adequate empty spaces of an extendible support table.

At the touch of a button the support table moves into the stapling device with 10 stapling heads A 20-42 and consolidates all parts with up to 10 coiled staples.

The stapling device recognizes automatically which stapling heads are to be activated. Stapling operations which are not necessary will not be released.

The support table will then be extended again and the consolidated part can be taken out.

Capacity approx. 12 – 15 sec./element (without handling)
Operating height: 800 mm,
Setting up space approx.: L 4 x W 2 x H 2 m.
